

Strengthen

your child's Math Concepts
this June holidays.

Show me the context and I will appreciate
Show me the meaning and I will understand
Show me the connections and I will apply

By panel of developers from GMT,VTM, Make it Right and The 60 Experience Problem Series

Tired of meaningless practice? Need a booster to strengthen your child's understanding? Be taught by our team of specialists who is also the team behind the creation of many best selling Math resources and training of teachers.

This June holidays, VisibleMATH will be conducting the second round of our popular school-based pupils' workshops for all P3 to P6 pupils. Designed by the creator himself, each module consists of enriching lessons that will help your child to:

- ✓ understand how the concepts are formed.
- ✓ connect similar concepts together.
- ✓ identify common misconceptions in conceptual understanding.
- ✓ connect concepts to up-to-date methods approved in examinations.
- ✓ scaffold complex problems and present in clear and concise steps.
- ✓ think out-of-the-box through interesting hands-on Learning Experiences.

Under the **VSC SCORE modules (P3 to P6)** pupils will develop their concepts in breadth and depth. The **VST STRETCH* modules (P5 to P6)** will teach pupils a series of complex and inter-connected concepts. They will also learn how to connect the various ideas and methods together. Using our renowned Read Write³ Strategy, they will learn how to scaffold a problem accordingly and gain the necessary method marks.
